Fenced Plot

Superb high quality 5 bedroom home with fenced in space. We are proud to offer for sale, this lovely fully reformed home in La Solana, near Algueña, Alicante.

The house is a stone built, beautifully finished 2 storey home reformed to a very high standard, with a lovely large lounge and dining area, semi-open kitchen, 2 bedrooms downstairs (currently used as a workshop and office), There is a bathroom also, as well as a storage area (not photographed). Upstairs, there is a further 3 bedrooms, a family bathroom, and a sun lounge with spectacular views. This room also has a utility room, with the central heating boiler (oil fired), gas water heating and laundry area.

Outside, the home boasts a large BBQ area, with an amazing cover, ideal for parties.

We believe the land to registered as urban as well, so if you wanted to install a pool, then this should be able to be done (with town hall permission etc). There is also a storage shed here, and great views. /p>

The house is in a small hamlet, so it has really friendly neighbours, making the house ideal for both permanent living, as well as a holiday home.
